

SNAPSHOT PROFILE

Visionary Frontend Developer with 2 years of hallmark career in leading cross-functional teams and spearheading the development of best-in-class **UI solutions** to enhance user experiences and drive business growth. Strategizing all aspects of frontend engineering activities and projects, benchmarking UI methods, and presenting critical initiatives to stakeholders.

Technology and Innovation Enthusiast, excels in both startup environments and large-scale enterprises, bringing a dynamic creativity and a proactive ‘**can-do**’ attitude. Demonstrated excellence in driving innovative solutions, delivering impactful UI architectures, and integrating backend systems to create seamless user experiences.

AI Integration Expert: Leveraged AI and machine learning technologies, including Large Language Models (LLMs) and Natural Language Processing (NLP), to enhance data-driven decision-making processes and elevate user experiences.

Core Strengths:

- Frontend development using **React.js, Redux, TypeScript, JavaScript (ES6+), HTML5, and CSS3/SASS**.
- **RESTful API integration** and async data handling.
- **UI performance optimization and mobile-first design**.
- **Version control (Git), CI/CD pipelines, and code quality standards**.

WORK & CONTRIBUTION HIGHLIGHTS (2 YEARS EXPERIENCE)

- Contributed to the **frontend development** of key modules at **Trangla Innovations Pvt.Ltd**, supporting products used by over **8,000 customers** and enhancing both development flow and user experience.
- Collaborated with senior engineers and gradually took on **lead responsibilities** in module-level tasks, resulting in cleaner code and **fewer UI bugs**.
- Applied **responsive UI patterns** and modern best practices, helping to improve **page load performance** and overall user satisfaction.
- Assisted in **frontend-backend integration**, contributing to improved **data handling and UI responsiveness**.
- Actively participated in **Agile sprints**, refining user stories and supporting faster, more structured development cycles.
- Built a **Chrome extension** for **Trangla**, which improved **user workflows and engagement** through intuitive UI design.

PROFESSIONAL DEGREES & ACCREDITATIONS

- **Bachelor of Computers (Information Technology)**, Acharya Nagarjuna University.
- **BIEAP Intermediate**, Sri Chaitanya College.
- **SSC**, Sri Majety High School.

CORE AREAS OF EXPERTISE

- **UI Architecture & Design**
- **JavaScript Frameworks**
- **Test-driven Development**
- **Project Planning & Execution**
- **Technical Leadership**
- **Team Building & Leadership**
- **Cross-functional Collaboration**
- **Problem-solving**
- **AI/ML Integration**
- **Agile Methodologies**

TECHNICAL EXPERTISE

- **Languages:** JavaScript (ES6+), TypeScript, React, Node.js
- **Frameworks and Libraries:** React, Redux, VueJS, NextJS, REST API integration.
- **UI Development:** HTML, CSS3, TailwindCSS, Bootstrap, Material Design, UI patterns, Web Accessibility.
- **Design & Architecture:** Event-Driven Architecture, MVP, Micro Front-ends, Monorepos, Docker
- **Visual Design:** Typography, Color Theory, Layout
- **Performance:** Profiling, Rendering Optimization, Core Web Vitals
- **AI/ML:** LLMs, NLP, PCA, Data Analysis, DataBricks, MLFlow, PySpark, Kafka, HuggingFace, OpenAI
- **Environment:** Windows, MacOS, Linux
- **Cloud Technology:** AWS, GCP, Azure, DigitalOcean, Vercel

CAREER TIMELINE

Trangla Innovations Pvt.Ltd, Hyderabad, India

Front-End Developer | Since Aug 2022

Currently serving as a Front-End Developer (Reactjs) at Trangla Innovations Pvt.Ltd, driving innovation by delivering impactful features across multiple Trangla Innovations modules, in frontend development (**React/TypeScript**), backend integration, AI/ML technologies, fostering high-performance teams, and Agile processes.

- **Strategically enhanced the Growth Portfolio module through innovative UI solutions**, integrating state-of-the-art AI technologies.
- **Spearheaded the creation of scalable and high-performance UI architecture** by conducting rigorous experiments with modern JavaScript frameworks.
- **Collaborated closely with UX specialists** to transform Figma designs into dynamic and user-centric UI components.
- Improved code quality and performance through comprehensive testing strategies, ensuring robust and reliable software delivery.
- **Worked With a team of frontend engineers**, fostering a culture of continuous learning and innovation.
- Facilitated cross-functional collaboration between engineering and other departments, such as product, design, and support, to ensure alignment of objectives and seamless execution of projects.
- Pioneered the integration of AI/ML technologies, notably Large Language Models (LLMs) and Natural Language Processing (NLP), to automate and optimize decision-making processes within the module.

KEY PROJECTS

Play At (Ground Booking Application)

Front-End Developer | Since Aug 2022

Contributed to the creation of Trangla AI-powered data platform that combines, analyzes, and trains data from human resource systems and workflows. This platform provides a continuously updated view of an organization’s entire workforce, enabling better matching of employees to internal initiatives and projects.

- **Collaborated with a team of developers** to build a highly responsive and dynamic web application for a major e-commerce client.
- **Implemented React.js** to create a maintainable and scalable application, handling thousands of concurrent users.
- **Designed and developed** reusable React components, optimizing performance through efficient state management.
- **Integrated payment gateway APIs to ensure secure and smooth transactions.**
- **Advocated a customer-centric development approach**, incorporating regular feedback loops, which increased customer satisfaction.
- **Conducted extensive testing** and debugging to ensure application reliability, stability, and accessibility.
- Recruited, acknowledged, and cultivated talent, leading to the expansion of the team and fostering a highly functional and cohesive workforce.

Internal Communication App

Fron-End Developer | Sep 2023- 2024 Oct

Designed, developed, and maintained robust full-stack web applications utilizing a variety of front-end technologies. Integrated server-side logic to enhance user experiences within web applications, ensuring seamless functionality and performance.

- **Developed full-stack web applications** using **React, VueJS, Angular**, and backend technologies such as **NodeJS, Java, and Python**.
- **Integrated new technologies** to drive innovation and maintain competitiveness in software solutions.
- **Implemented best practices throughout the software development lifecycle**, emphasizing testing, integration, and code quality.
